

If you've not yet done these ... this is the week to start!

THE GREAT BIG GREEN WEEK

SWITCH TO GREEN ENERGY.

Pick a renewable provider. bigcleanswitch.org/partners

MOVE YOUR MONEY.

Choose banks/pensions that don't fund fossil fuels.

Tell them why you're leaving. ethicalconsumer.org/best-buy-label

SUPPORT ECOCIDE LAW. Imagine a world where our Earth's vital ecosystems are legally protected from the severest harms.

Add your name. stopecocide.earth

BUY ORGANIC, SHOP LOCAL, EAT LESS MEAT.

Eat more plants for health and a healthy world. 85% of our farm land is used for grazing or growing crops to feed farm animals. If we are to feed our population through the climate crisis we need to eat more plant based foods. Buying locally enriches our communities. In an unstable world we need to ensure our local communities and local economy can thrive. Buying locally and being active in our communities helps us to be more resilient.

PROTECT RIVERS & SEAS, SAVE WATER.

Avoid toxic toiletries and be mindful of water use.

GET INVOLVED.

Talk to your MP/councillors, ask what climate action they're taking.

PLANT TREES, GROW FOOD, JOIN LOCAL COMMUNITY GROUPS.

An untidy garden is a happy place. A trim lawn and neat flower borders don't provide homes and food for the insects that pollinate our crops and feed the birds and bats we share our country with.

CUT FOSSIL FUELS.

Drive/fly less, reduce plastic, insulate your home, consider solar or a heat pump.

CONSUME LESS. WASTE LESS, ENJOY MORE, SPEND TIME IN NATURE.

JOIN TRANSITION TOWN CHICHESTER. As the global climate becomes more unstable, it is important that we become more self reliant as a country and as communities.
